

**Listing of and Amendments to the Claims:**

This listing of claims will replace all prior versions of claims in the application:

1-20. (previously canceled)

21. (currently amended): A bowling table and scoring unit assembly, comprising:  
an elongated table having first and second extreme ends and opposite sides and a top with a circular aperture positioned adjacent to said first extreme end of said top;

a scoring unit having a display screen, and a base received in said circular aperture of said top and rotatably supported to permit said scoring unit to be rotated with respect to said table about a generally vertical axis for viewing said display screen from both sides of said table;

a pedestal base more adjacent to said table second extreme end having a lower portion thereof abuttingly supported on ~~the~~ a floor surface, and an upper portion thereof connected with said top to at least partially support said top above the floor surface.

22. (currently amended): A table and scoring unit assembly as set forth in claim 21, including:

a core support column having a lower portion thereof abuttingly supported on an associated floor surface, and an upper portion ~~thereof operably~~ which is pivotally connected ~~with to said base, and supports said~~ scoring unit thereon.

23. (currently amended): A table and scoring unit assembly as set forth in claim 22, including wherein:

~~said support~~ a column assembly having an axially lower portion thereof abuttingly supported on an associated floor surface and an axially upper portion thereof configured to support said table wherein said core support is disposed within said column assembly includes a center core which is pivotally connected with said base, and at least partially supports said scoring unit thereon.

24. (canceled)

25. (previously canceled)

26. (previously amended): A table and scoring unit assembly as set forth in claim 23, wherein:

said scoring unit includes a keyboard which rotates with said display screen on said base.

27. (previously submitted): A table and scoring unit assembly as set forth in claim 26, including:

at least one seat positioned adjacent said top at one of said sides of said table and supported on said pedestal base.

28. (previously submitted): A table and scoring unit assembly as set forth in claim 27, wherein:

said display screen includes a touch screen.

29. (canceled)

30. (previously canceled)

31. (previously submitted): A table and scoring unit assembly as set forth in claim 21, wherein:

said scoring unit includes a keyboard which rotates with said display screen on said base.

32. (previously canceled)

33. (previously submitted): A table and scoring unit assembly as set forth in claim 21, wherein:

said display screen includes a touch screen.

34. (currently amended): A bowling table and scoring unit assembly, comprising:  
an elongated table having first and second extreme ends and opposite sides and a top with a circular aperture positioned adjacent to said first extreme end of said top;

a ~~support~~ column assembly having an axially lower portion thereof abuttingly supported on an associated floor surface, and an axially upper portion configured to support said table ~~thereof disposed below said circular aperture in said top~~;

a core support having a lower portion thereof abuttingly supported on an associated floor surface, and an upper portion which is pivotally connected with said base and supports said scoring unit thereon, said core support disposed within said column assembly;

a scoring unit having a display screen, and a base received in said circular aperture of said top; and

means for rotatably supporting said base on said upper portion of said core support column to permit said scoring unit to be rotated with respect to said table about a generally vertical axis for viewing said display screen from both sides of said table.

35. (canceled)

36. (canceled)

37. (currently amended): A table and scoring unit assembly as set forth in claim ~~34~~ 36, including:

a pedestal base having a lower portion thereof abuttingly supported on the floor surface, and an upper portion thereof connected with said table at a spaced apart location from said support column to at least partially support said top above the floor surface.

38. (previously presented): A table and scoring unit assembly as set forth in claim 37, wherein:

said scoring unit includes a keyboard which rotates with said display screen on said base.

39. (previously presented): A table and scoring unit assembly as set forth in claim 38, including:

at least one seat positioned adjacent said top of one of said sides of said table and supported on said pedestal base.

40. (previously presented): A table and scoring unit assembly as set forth in claim 34, including:

a plurality of seats positioned adjacent said top on both sides of said table, and supported by said assembly.
